# ENDOSEQUENCE® CM

## THE PATENTED ENDOSEQUENCE® DESIGN

The original EndoSequence file was introduced over 15 years ago, and despite the introduction of countless competitive files, EndoSequence remains one of the most popular files available today. The patented design and quality manufacturing set the EndoSequence file apart and make it one of the most efficient cutting files on the market.

## WHAT YOU LOVE ABOUT ENDOSEQUENCE®, MADE BETTER

EndoSequence CM Files are manufactured with an enhanced nitinol metallurgy and heat treatment process that allows for cutting edge fidelity and superior resistance to cyclic fatigue. EndoSequence CM provides clinicians with a more flexible option and an instrument that is significantly more resistant to separation.

## ENDOSEQUENCE® CM PRODUCT OFFERING (4/PACK)

EndoSequence CM Files are provided in sterile blister packs with four instruments per pack.
