## VersaFlex™

Diamond-Coated Mylar Snap-On Disc & Interproximal Strip Polishing System

- Exceptional, multi-edged diamond coating provides the efficiency and versatility to polish all restorative materials including composites, ceramics, metal, and amalgam
- Color-coded to allow for easy identification of grit
- Snap-on disc feature makes changing discs easy and fast
- Flexible disc design easily conforms to the individual contours of each tooth providing unrestricted access to even hard-to-reach locations
- Corresponding mylar strips help gain access to tight interproximal areas
- Different grits on each end of strip with uncoated center for easy interproximal insertion
- For both intra-oral and extra-oral use
- Disposable, single-patient use
